

# HOW TO CREATE/EDIT STUDENT OBSERVATIONS

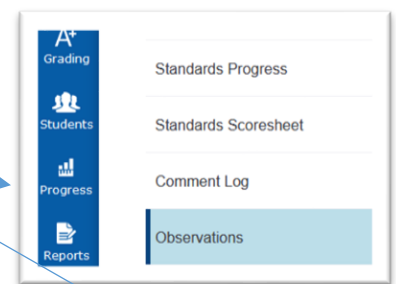

## To create a student observation:

1. From the main navigation menu in PowerTeacher Pro, click on the “+” icon on the top right of the screen and click on “Observation.”
2. Fill out the required fields. Click “Save” on the bottom right to log the observation.

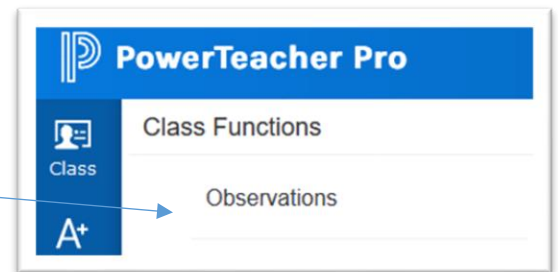

## To view or edit previous observations on an individual, do the following:

1. From the main navigation menu, choose Students>Observations.
2. Click the “Edit” icon to manage the observations you created.

## To review the observation notes created for a class:

1. From the main navigation menu, choose Class>Class Functions>Observations.
2. Choose a class from the class selector to display notes.
